**\*Network Providers have agreed to accept the Maximum Allowable Charge (MAC) as payment in full.** However, when you receive services from Non-Network providers, you are responsible for any amounts over Medicare-based reimbursement levels. Non-Network providers may charge considerably higher amounts. Therefore, if the billed amount exceeds the Medicare-based allowable charge, your provider may bill you for the difference. It is best to utilize network providers whenever possible. These amounts over the Allowed Charges, while the responsibility of the Covered Person, do not apply toward deductible or out-of-pocket maximums. Please refer to your Summary Plan Description (SPD) for details. **The SPD is the final determination of all benefits.**

**Pre-Certification Penalty:** Certain procedures or medical care require pre-certification in order to qualify for full benefits. Failure to pre-certify will result in a \$250 penalty per service, procedure or confinement. Please refer to the Pre-Certification section in your SPD for details.

**Please Note:** This schedule applies as indicated in the Summary Plan Description.

*This schedule must be read in conjunction with the entire Summary Plan Description and has no full meaning by itself.*
